PROFESSIONAL SUMMARY

I am a passionate developer with a strong foundation in web development and a growing expertise in AI/ML. My journey began with building dynamic, user-friendly web applications using modern frameworks, which taught me how to handle data flow, databases, and system architecture. Driven by curiosity about how data can drive intelligent decisions, I expanded into AI/ML — working on predictive models, data preprocessing, and integrating basic AI features into web platforms. My unique strength lies at the intersection of these two fields: creating AI-powered web applications that are not only functional but also smart and adaptive.

WORK EXPERIENCE

Intern, Web Developer – Remote

1st August - 31st August 2025

prodigyinfotech

- Developed 5 mini projects during the internship, demonstrating proficiency in HTML, CSS, and JavaScript.
- Built an interactive navigation menu with fixed positioning, color changes on scroll, and hover effects.
- Created a responsive landing page with modern gradient design and mobile-friendly layout.
- Developed a stopwatch web application with start, pause, reset, and lap time tracking functionality.
- Built a Tic-Tac-Toe game with user click handling, game state tracking, and win condition detection.
- Created a personal portfolio website showcasing skills and projects with modern UI design.

Intern, Machine Learning – Remot

1st October - 31st October 2025

prodigyinfotech

- Implemented a Linear Regression model to predict house prices based on square footage, number of bedrooms, and bathrooms
- Created a K-Means clustering algorithm to group customers of a retail store based on their purchase history.
- Implemented a Support Vector Machine (SVM) to classify images of cats and dogs from the Kaggle dataset.
- Developed a hand gesture recognition model to accurately identify and classify different hand gestures from image or video data for intuitive human-computer interaction
- Built a food recognition model that accurately identifies food items from images and estimates calorie content, enabling users to track dietary intake.

EDUCATION

Bachelor of Computer Science: CSE (AI&ML)

2024 - 2027

Asha M. Tarsadia Institute of Computer Science And Technology

Bardoli, India

Diploma: Computational Science (06/2024)

2014 - 2018

Dr Babasaheb Bhimrao Ambedkar Government Polytechnic

Karad, India

SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML5, CSS3

AIML Frameworks & Libraries:: NumPy, Node.js, PyTorch, CNN ,RNN , Django

Tools: Git, Docker, AWS, Jenkins, Terraform, VS Code
